LIST OF PUBLICATIONS GIVING DATA ON DENTAL RESEARCH

Conducted at the
NATIONAL BUREAU OF STANDARDS

Information Section
Bureau of Standards, Washington

Numerous requests are received by the National Bureau of Standards for references to its publications on dental research. Most of these publications have appeared in the professional journals and therefore are not available for purchase from either the Bureau or from the Superintendent of Documents. They are however available for consultation at the numerous dental libraries. The reports by the Bureau, appearing in its regular series of publications, are usually available from the Superintendent of Documents, Washington, D. C., or may be consulted at the libraries of the principal cities of the United States and of several foreign countries.

The work being in active progress; reports will continue to appear until its completion, at which time it may be found desirable to combine all data in one publication. Until this is done it will be necessary to use the individual reports. To assist those wishing to consult these the following list has been prepared.

Subject	Publication
Dental Amalgam Methods of testing, results of comparative tests	Bureau of Standards Technologic Paper No. 157. Price 10 cents. (Reprinted in Dental Cosmos, LXII, p.305-335;March, 1920.)
Dental Amalgam Specification	Federal Specifications Board Specification No. 356. (Reprinted in Journal of Dental Research VII, p.186-188;June, 1927.)
Dental Amalgam General discussion emphasizing need for testing of materials.	Journal of Dental Research VII, p.173-188; June, 1927.
Dental Research Outline of program.	Journal of the American Dental Association, 11, p.249-250; March, 1924
Wrought Materials Methods of testing, values, compositions.	Journal of the American Dental Association, 12, p.509-546; May, 1925.

Subject	Publication
Cast Materials Methods of testing, values, compositions.	Dental Cosmos, LXVIII, p.743-764; August, 1926.
Selection of Materials Casting to dimensions, need for testing.	Journal of the American Dental Association, 14, p.189-199, February, 1927.
Casting Materials Physical properties, methods of testing.	Dental Cosmos, LXIX, p.1007-1026; October, 1927
Analysis of Dental Gold Alloys Methods of analysis	Bureau of Standards Scientific Paper No. 532. Price 10 cents. (To be reprinted in Journal of Dental Research VII; December, 1927)
Dental Gold Alloys Tentative specification and test methods.	Journal of the American Dental Association (In press to appear in 1928)

Preliminary announcements of more important findings are often made in the monthly publication: Bureau of Standards Technical News Bulletin. Price 25 cents a year.
